## Profile

I am a Frontend Developer as well as a WordPress Developer and design enthusiast who enjoys open source technology and builds accessible, human-centered products.

## Experience

### Frontend Developer · Swivt Technologies

Oct 2021 - Present

I began my career as a WordPress developer at Swivt, a leading global startup offering IT resources and business strategies. After a year of experience, my passion for frontend was evolving, prompting me to switch my career path and become a frontend developer.

- Worked with a team of QA, designers & developers to build accessible, human-centered products.
- Worked with senior developers to develop modern, performant, maintainable code for a diverse array of client and internal projects.
- Followed agile methodology and scrum framework.
- Learned project management along with product design, requirement elicitation, quality assurance and product maintenance.
- Focused on developing dynamic and visually appealing, seo friendly, fully accessible websites, utilizing the latest technologies & design principles to deliver exceptional user experiences and best optimized performance.

### Wordpress Developer · Hyburtech

May 2021 - Oct 2021

As it was an ambitious startup, I was responsible for managing a team of 4 design and development professionals.

- Developed a range of wordpress sites as well as static, responsive websites using HTML/CSS3 and JavaScript.
- Contributed to making the sites developed more SEO friendly along with other SEO experts.
- Implemented a range of techniques and optimizations to enhance the performance and speed of web pages, resulting in improved search engine rankings.

### Web Designer · Danfe Creatives

Apr 2020 - Dec 2020

I was responsible to develop and maintain the websites for in-house and clients. Here I've worked on majorly websites in various technologies like Wordpress, Woocommerce, Ghost, Wix, Webflow etc. Apart from that, I've worked on landing pages, Blogs, News Portal, Investment Companies Portfolio, Multi-Vendor Ecommerce, Email template designs etc.

2016 - 2019 · Panchayat Secondary School, Patharisanishare

Completed the diploma in civil engineering with A Grade, as well as collected an experience like estimation, building supervision and 2d house design using autocad during the OJT (on the job training) hours.

## Recent Projects

### Drop Tab – Best bookmark tool

[Project Link ↗](#)

Chrome Extension · Bookmark Manager

Drop Tab is a simple chrome extension that saves web pages much more efficiently. This chrome extension makes it easy to quickly bookmark the current tab for future visits. No need to clutter your menu bar with bookmarks. Just open chrome, install the extension, and save away. You don't even need to sign into your Gmail account.

### Chrome App and Extension Creator

[Project Link ↗](#)

Extension Builder · Website · # 21th on Product Hunt

It is a utility that allows you to easily create chrome packaged apps without needing to type any code. Chrome extension & app creator allow you to easily create limitless apps and extensions. Also, it lets you associate them with your website.

### ERROR TO 200

[Project Link ↗](#)

Blog · Website · Ghost

Error to 200 means "Error to Success Status". Through this blog and my attempt is to teach basics and those coding techniques to people in a short time. You can find awesome programming lessons here! Also, expect programming tips and tricks that will take your coding skills to the next level.

### Web Dev Share

[Project Link ↗](#)

Web App · Ideas Sharing Platform

Web Dev Share provides a platform for individuals to showcase their projects, ideas, and talents to a broad audience. Whether you have a personal portfolio, a business opportunity, or an idea you are developing, our platform offers the opportunity for you to share your work with a wider audience and potentially reach new opportunities. We believe in the value of showcasing your unique skills and experiences, and we are excited to offer a platform for individuals to do so.
